

Helix Manufacturing Ltd

Board Pack — Q4 2025

Prepared by: Tom Richardson, Finance Director

Date: 15 January 2026

Confidential — For Board Use Only

Executive Summary

Helix Manufacturing delivered a strong Q4 2025, with turnover reaching £3.2M, up 8% on Q3. Production output hit 45,200 units, a new quarterly record driven by the line 3 expansion completed in September. Gross margins improved to 42% as raw material costs stabilised after the supply chain disruptions earlier in the year.

EBITDA of £520K represents a 16.3% margin, slightly ahead of budget. The main risk remains the pending renewal of the Midlands facility lease, due for renegotiation in Q1 2026. We anticipate a 12-15% rent increase based on current market rates.

Cash position remains healthy at £890K, though the capital expenditure programme for line 4 is expected to draw down £400K in Q1 2026. Total debt stands at £1.8M following the scheduled repayment of £200K on the term loan.

Headcount increased by 5 to 142 as we hired additional machine operators for line 3. Attrition remains low at 4.2% annualised.

Profit & Loss Statement — Q4 2025

Item	Q4 2025 (£)	Q3 2025 (£)	Variance (%)
Turnover	3,200,000	2,960,000	8.1%
